WHO AM I?

I am a student of computer science at the University of Havana and software developer. I am passionate about mathematics and algorithms and I am interested in working in the fields of software engineering and artificial intelligence. I also work as a competitive programmer and ICPC contestant.

C#
Phyton
Rust
C/C++
JavaScript/TypeScript
Competitive Programming
Data Sructures and Algorithms

React   .NET   Mysql   HTML/CSS   Git   Latex

EXPERIENCE

4/2022 – Till Date
part time

Assistant Profesor — **Havana University**

During my studies at the university I have worked as an assistant in the subjects of Algebra and Data Structures and Algorithms

`Competitive Programming / Data Sructures and Algorithms`

EDUCATION

11/2021 – Till Date   **Computer Science Degree** — **Havana University**
I am currently in the 3rd year of my degree

9/2016 – 6/2019   **Bachelor's Degree** — **IPVCE Máximo Gómez Báez**
My Bachelor's studies

PROJECTS

- **Expression**: Math Operations implemented in BigNum and a Math Expression generator
- **Journal-App**: Learning React
- **Calendar-App**: Learning React and ASP .NET (API)
- **PySharp**: Mini language and a Parser
- **rcf**: Rust Codeforce Tool
- **n-omino**: A somewhat peculiar game of dominoes

ACHIEVEMENTS

- During my undergraduate studies I competed in the subject of mathematics, obtaining a silver medal and being part of the national preselection on 2 occasions.
- 10th place in ICPC-2021 Caribbean Finals (Qualifier).
- 10th place in ICPC-2021 Caribbean Finals.
- 5th place in ICPC-2022 Caribbean Finals (Qualifier).
- 12th place in ICPC-2022 Caribbean Finals.
