WHO AM I?

I am a student of computer science at the University of Havana and software developer. I am passionate about mathematics and algorithms and I am interested in working in the fields of software engineering and artificial intelligence. I also work as a competitive programmer and ICPC contestant.

EXPERIENCE

4/2022 – Till Date part time	Assistant Professor During my studies at the university I have worked as an assistant in the subjects of Algebra and Data Structures and Algorithms Competitive Programming / Data Structures and Algorithms	Havana University
2/2024 – Till Date full time	Mobile Developer I worked as a Mobile Developer Flutter / Dart	Businessseed
9/2023 – 1/2024 full time	Full Stack Developer I worked as a Full Stack Developer React / .NET / MySql	jobs2live

EDUCATION

11/2021 – Till Date	Computer Science Degree I am currently in the 3rd year of my degree	Havana University
9/2016 – 6/2019	Bachelor's Degree My Bachelor's studies	IPVCE Máximo Gómez Báez

PROJECTS

- **Expression**: Math Operations implemented in BigNum and a Math Expression generator
- **Journal-App**: Learning React
- **Calendar-App**: Learning React and ASP.NET (API)
- **Teslo-Shop**: Learning Next
- **Social-Network**: A social network
- **Travel-Agency**: A website for travel agencies and tourists

ACHIEVEMENTS

- During my undergraduate studies I competed in the subject of mathematics, obtaining a silver medal and being part of the national preselection on 2 occasions.
- 10th place in ICPC-2021 Caribbean Finals.
- 12th place in ICPC-2022 Caribbean Finals.
- Silver Medal in ICPC-2023 Caribbean Finals.
